

Greg Bobrowicz [BAH-bro-its] is an independent consultant at FDAReady Consulting specializing in FDA compliance audits and corrective action plans at biotechnology and other high-technology products. He has clients around the world and has been a key member of the teams bringing several high-profile products to market. Prior to founding his company, he was Director of Biotechnology at Quintiles Consulting. From 1991 to 1998, he was an investigator at the US Food and Drug Administration, where he was the NDA Pre-Approval Manager for San Francisco District and a Biotechnology Specialist Investigator for the Pacific Region. He has drafted inspection guidance and compliance policies for FDA, and he was recognized with the FDA Award of Merit and a Vice Presidential Award for excellence in reinventing government. Prior to FDA, he was an academic researcher in Cell Biology.
